CHART III

This chart illustrates phasing of courses if Phases II and III become courses in a 5-weeks - 3-weeks ratio. As in Chart I, there is no break for the student between any of the courses of training.

In this case, as in CHART II, the Administrative Training people would have, in effect, one week's break between each Administration and Administrative Support Course. The first week of A/S is tradecraft, thus effectively providing a week's break for the instructor personnel.
